Open Consultation

15 June 2019
The E-Humanities Working Group from the All European Academies (ALLEA) opened a consultation on "Recommendations for Sustainable and FAIR Data Sharing in the Humanities", open to all till 15th July 2019.

In an effort to support Open Science practices in the humanities, the working group has drafted recommendations for humanities researchers working with data, seeking contributions from researchers and practitioners working in disciplines within the humanities, as well as policy makers and representatives of public and private organisations working in the field. The purpose of the open consultation is to gather broad feedback from active humanities researchers, in order to best tailor FAIR recommendations to the humanities.

- **I want to contribute to the Open Consultation:** Click http://bit.ly/ALLEADH and have your say
- **Till when I can add my inputs?:** 15th July 2019
- **How can I contribute**: You can contribute by leaving comments, making suggested edits, asking questions, or providing use-cases directly in the document. If you sign into a Google account before contributing, then your name/email address will be visible in the document, and we can acknowledge your participation in our final publication.

For more information see the ALLEA E-Humanities Working Group home page.

About

The European Academies constitute a unique pan-European knowledge base that is trusted, non-partisan and long-term. The
