

28 June 2019

**Would you like to get dedicated support for your data repository to achieve the CoreTrustSeal certification or to have your repository to be more compatible with other repositories? Then this open call might be something for you!**

The FAIRsFAIR project is working on practical solutions for the use of the FAIR data principles throughout the research data life cycle. Emphasis is on fostering FAIR data culture and the uptake of good practices in making data FAIR. FAIRsFAIR will play a key role in the development of standards for FAIR Certification of repositories and their data holdings, contributing to policies and practices that will turn the EOSC programme into a functioning infrastructure.

**Through this Open Call FAIRsFAIR seeks to support data repositories with two different initiatives:**

1. **Support for data repositories towards achieving CoreTrustSeal certification** (www.coretrustseal.org): **FAIRsFAIR is offering financial incentive of up to €10.000 per data repository as well as dedicated support** for pre-submission to the CoreTrustSeal certification process;
2. **Support for the "FAIRification" of your repositories** by discussing and designing implementation features that enable and increase repository interoperability. This will be achieved through building and testing prototypes of an interoperability layer for data repositories, and will ultimately improve the FAIRness of data in repositories that enable FAIR data.

© Copyright 2020 – FAIRsFAIR "Fostering FAIR Data Practices In Europe" has received funding from the European Union's Horizon 2020 project call H2020-INFRAEOSC-2018-2020 Grant agreement 831558. The content of this document does not represent the opinion of the European Union, and the European Union is not responsible for any use that might be made of such content.

We welcome repository managers and representatives to apply for one, or if applicable to both of the support initiatives!

The **deadline for applying is Friday, 30th of August 2019. For all information and application visit the dedicated page.**

Any questions can be addressed to opencall@fairsfair.eu.
