Center for Research Data Management and Data Stewardship Course: Good Practice #3

Uploaded on: 21 Feb 2022

Garbuglia, Federica; Saenen, Bregt; Gaillard, Vinciane

Since 2018, two separate initiatives have emerged at TU Wien with the shared goal of fostering the emergence of FAIR data-sharing practices among, respectively doctoral candidates and Master students. Firstly, the university created the Center for Research...

FAIR-Aware: Assess Your Knowledge of FAIR

Uploaded on: 09 Jul 2021

Vesa Akerman; Linas Cepinskas; Maaïke Verburg; Mokrane Mustapha

FAIR-Aware is an online tool which helps researchers and data managers assess how much they know about the requirements for making datasets findable, accessible, interoperable, and reusable (FAIR) before uploading them into a data repository....

Analysed data from interviews on FAIR-enabling services

Uploaded on: 30 Nov 2020

Herterich, Patricia; Aalto, Tero; Koers, Hylke

Within FAIRsFAIR task 2.4, we carried out five semi-structured interviews with data service owners to understand how services currently support the FAIR principles, what are transferable insights and recommendations, and what are common challenges and...
