F-UJI : An Automated Assessment Tool for Improving the FAIRness of Research Data

Uploaded on: 30 Sep 2020

Anusuriya Devaraju; Robert Huber

The talk presents the development of two of the main outputs of Task 4.5 (FAIR Data Assessment-Pilots) of FAIRsFAIR. First, a set of FAIR data assessment metrics (v0.3), and the second a tool named F-UJI that supports an automated assessment of research...

How repositories can contribute their FAIR share

Uploaded on: 01 Jun 2020

Herterich, Patricia; Davidson, Joy

Findable, accessible, interoperable and reusable (FAIR) data are an increasingly important aspect of open scholarship. Increasing the production and use of FAIR data requires a wide range of stakeholders across the research ecosystem to actively play their...
