The FAIRsFAIR Roadshow will virtually visit Spain on **23 June 2021 to offer a FAIR programme.**

EN: On June 23, FAIRsFAIR in collaboration with the Scientific Information Resources Unit for Research (URICI) of the Higher Council for Scientific Research (CSIC) organizes an online event open to the entire Spanish community on the European Open Science Cloud (EOSC) and the participation of data repositories. The event is entitled **"Green Data Market for Research & the Role of Repositories"** and will address, through interventions by members of the FAIRsFAIR project, as well as different Spanish and European initiatives, aspects related to good practices in the policies and management of research data repositories for adherence to the FAIR Principles and inclusion in EOSC. The event will have a bilingual format and will provide an overview of recommendations, services, resources and training for data repositories through experiences from the FAIRsFAIR project itself as well as from the Ministry of Science and Innovation of Spain, Science Europe, EOSC SYNERGY, IBERGRID and the CSIC.

ES: El 23 de junio FAIRsFAIR en colaboración con la Unidad de Recursos deInformación Científica para la Investigación (URICI) del Consejo Superior de Investigaciones Científicas (CSIC) organizan un evento online abierto a toda la comunidad española sobre la Nube Europea de Ciencia Abierta (EOSC) y la participación de los repositorios. El evento tiene como título "Green Data Market for Research & the Role of Repositories" y abordará, a través de intervenciones de integrantes del proyecto FAIRsFAIR, así como de diferentes iniciativas españolas y europeas, aspectos relativos a buenas prácticas en las políticas y gestión de repositorios de datos de investigación para su adhesión a los Principios FAIR y su inclusión en EOSC. El evento tendrá un formato bilingue y dará una panorámica de recomendaciones, servicios, recursos y formación para los repositorios de datos a través de experiencias del propio proyecto FAIRsFAIR como del Ministerio de Ciencia e Innovación de España, Science Europe, EOSC SYNERGY, IBERGRID y el CSIC.

Topics

1. Green data market for research: Spanish Green road and the role of repositories: the role of repositories within EOSC
2. FAIR in practice recommendations for data librarians
3. Data Stewards and what could a data stewardship curriculum look like and why this is important
