

Date:
20 May 2021

May 20, 2021 15:00-17:00 CEST

Repositories are key service providers in the FAIR ecosystem. We encourage representatives of repositories of all types to join this two-hour webinar which will introduce our draft FAIR assessment framework. The proposed framework aims to help service providers to ensure their data services are 'FAIR enabling' and optimally support the FAIRification process. This workshop will introduce the six key aspects of the framework and there will be time for discussion and an opportunity to identify gaps and formulate improvements. Feedback received will be incorporated into a further iteration of the report to be published later in 2021. **Official webpage here**.

Programme	
15:00	**Welcome**
15:10	**Focus on each technical aspect: validate the current recommendations**
16:05	**Focus on each social aspect: validate the current recommendations**
16:45	**Next steps**
17:00	**Close**
