Date:
28 October 2021 to 29 October 2021
Location:
Virtual

Laserlab-Europe and ELI are organising a workshop on research data handling and analysis challenges on the mornings of 28-29 October 2021 (online). Please, save the date.

The diversity in applications, experience and size in the Laserlab-Europe community is both a challenge and a virtue for this subject. Our main goal is to include as many views and opinions as possible from the Laserlab-Europe partners. Together with ELI, we want to introduce the existing efforts and landscape to provide an overview, but keep enough time to hear about the scientists' needs and opinions and foster discussion.

The event is free to attend. The Workshop will take place online via Zoom. A link will be provided after registration. If you have any questions about the event, please contact the Laserlab-Europe office for more information.

FAIRsFAIR at Laserlab-Europe and ELI Research Data Management Workshop

Joy Davidson, from FAIRsFAIR and University of Glasgow, will do a 20-min presentation entitled "Data Policies supporting the scientific community".
