Date:
20 October 2021
Location:
Online

On October 20th FAIRsFAIR will join the online workshop "The Road to EOSC seen from the national level", organized by the Authority for Digitalization of Romania and the Technical University of Cluj-Napoca, in collaboration with Open Science Knowledge Hub (OSKH) and the coordinators of the National Initiative on the cloud for open science (RO-NOSCI).

The event is part of a path dedicated to the development of national strategic recommendations to support Romania's efforts towards European initiatives on Open Science and High Performance Computing (HPC), part of the Strategic Framework for Adoption and the use of innovative technologies in public administration 2021 - 2027 - solutions for streamlining the activity ", co-financed from the European Social Fund through the Administrative Capacity Operational Program.

The workshop of October 20th is dedicated to the development of the European Open Science Cloud (EOSC) and the actions launched at European and national level. The discussions will help identify the best ways in which Romania can contribute to this European goal and can increase its integration into the EU's scientific and technological development strategy.

Check the event page & register (in Romanian)
