Date:
25 January 2022 to 26 January 2022
Location:
Virtual

The **3rd Workshop** on the connection of **ESFRI Research Infrastructures** (RIs) to the **European Open Science Cloud (EOSC)** titled will take place on **25 & 26 January 2022**, as an Online Event.

The main objective of the workshop is to bring together ESFRI, ESFRI RIs and EOSC stakeholders, in order to showcase and better comprehend the EOSC concept, including the Open Science and “FAIR” policy agenda, and the vision for the future, along with the EOSC value proposition for its users, and ensure an optimal federation of clusters and RIs with EOSC. The event will focus on the current state of EOSC and how the thematic RIs and ESFRI clusters fit into the developing landscape, including the partnership with the newly established EOSC Association.

Robert Huber, from University of Bremen and FAIRsFAIR member, will present the FAIRsFAIR FUJ-I tool on 26th January at 10.00 during the session "How generic and thematic EOSC services can add value to the RI community

The workshop is organised by the ESFRI Task Force on EOSC and the StR-ESFRI2 Project, in close cooperation with ESFRI and the EC, and with participatiob from the EOSC Cluster projects, the EOSC Association Board of Directors, and the EOSC Future project.
