

Dr Danny Kingsley (Flinders University, Australia) and
Harriet Notman (Jisc, UK)
14 Feb 2022 .

There has recently been a governmental, political, and global focus on **ensuring research integrity, reproducibility and open research**. In order for this to occur, we need skilled research support staff and a process to train others and maintain standards.

On 26th November 2021, the Open Research Competencies Coalition ([ORCC](#)) in cooperation with [FAIRsFAIR](#) and [EOSC Synergy](#) projects co-organised a virtual session on [Advancing the skills agenda for reproducibility, open and FAIR](#). The session aimed to **identify and map the skills and competencies needed by the current and future open research support workforce**.
