

01 June 2022

"*FAIRsFAIR has delivered exceptional results with significant immediate or potential impact. The sustainability plan mentions a list of* ***21 outputs*** *(classified as key exploitable results, key outputs and key functions) to further sustain after the end of the project; still, this list does not cover the multiplicity of relevant exploitable results. Crucially, the project significantly advanced the implementation of FAIR practices in Europe*"

On the 12th of May FAIRsFAIR underwent its final review with the European Commission experts, presenting the activities, achievements, impact and sustainability plan of FAIRsFAIR. In their initial feedback both the representatives from the Commission as well as the reviewers concluded that the project results are *excellent, outstanding and exemplary*. These first impressions are confirmed by the final consolidated review report that has been finalised in this days.

> "During the reivew it was said that we have created a very high bar for others to strive for. Our self-reflection and honesty, openness and ability to adapt, as well as our extremely collaborative approach both within the project itself as with external parties, were highly praised. The EC stated that as a project we practiced what we preached: FAIRness and Openness". **Ingrid Dillo**, FAIRsFAIR Coordinator

FAIRsFAIR results are now available for the Research Community in the European Open Science Cloud framework and accessible through:

© Copyright 2020 – FAIRsFAIR "Fostering FAIR Data Practices In Europe" has received funding from the European Union's Horizon 2020 project call H2020-INFRAEOSC-2018-2020 Grant agreement 831558.
