Data Train

Training in Research Data Management and Data Science

530%

increase of global
data volume

From 33 zettabytes
in 2018 to 175
zettabytes

**€829
billion**

value of data
economy in the
EU27

From €301 billion
(2.4% of EU GDP)
in 2018

**10.9
million**

data
professionals in
the EU27

From 5.7 million in
2018

65%

Percentage of EU
population with
basic digital skills

From 57% in 2018

Data Availability

The following information was supplied regarding data availability:

This project has been deposited at DDBJ/ENA/GenBank under the BioProject accession no. [PRJNA385857](#) and drafts of genomes are available with accession no. [NHBG00000000](#)– [NHMJ00000000](#). All contigs generated using Megahit from each sample are available through ~~Microbes~~ (<http://data.microbes.org/project/view/261>). TARA Oceans has deposited the reads in the NCBI Sequence Read Archive (SRA) with accessions [ERS488346](#), [ERS488330](#), [ERS477998](#), [ERS477979](#), [ERS488509](#), [ERS488486](#), [ERS478040](#), [ERS477953](#), [ERS477931](#), [ERS488147](#), [ERS488119](#), and [ERS478017](#).

404 Not Found

nginx/1.12.2

MISSING DATA

As research articles age, the odds of their raw data being extant drop dramatically.

Odds of data being lost are estimated to increase by 17% in every year after publication.

Find a working e-mail address for the first, last, or corresponding author fell by 7% per year.

Overall, we only received 19.5% of the requested data sets, and only 11% for articles published before 2000.

Towards a FAIR research DATASPHERE

National Initiative

TARGET: FAIR data

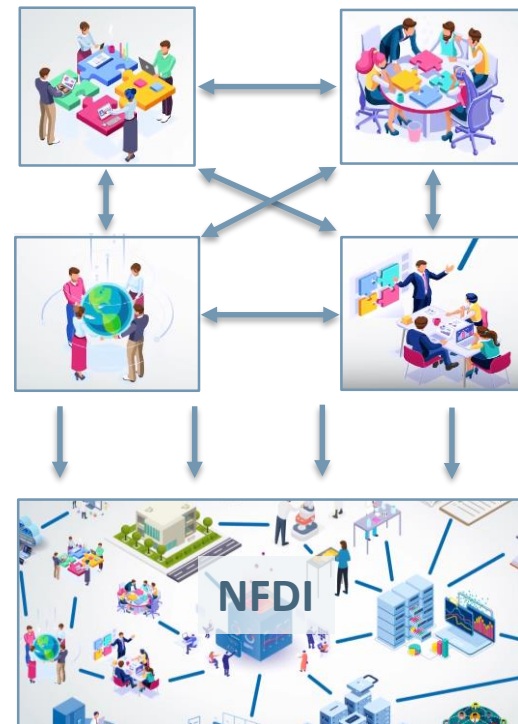

STRATEGY: build up NFDI via consortia

The National Research Data Infrastructure (NFDI)

“... objective to systematically index, edit, interconnect and make available the valuable stock of data from science and research.

... for treating new research issues, generating findings, and making innovations.”

© DFG, German Research Association;
Movie about the NFDI Initiative

© Figures: DFG, German Research Association;

Report from the EOSC
Executive Board Skills and
Training Working Group:
[Digital skills for open science](#)

*„...the quality of
data needs to be
enhanced...”*

Rfil, 2019

*„Until 2023,
approximately **700,000**
persons with
technological skills are
required, to meet the
need for tech-
specialists.”*

Kirchherr et al., 2018

FUTURE SKILLS

- Data literacy
- Data management
- Data science
- Critical thinking
- Innovative technologies

[Rfil, 2019](#), [2019](#); [HF Digitalisierung, 2019](#)

Dr. Tanja Hörner

Data Train

Training in Research Data Management
and Data Science

RESEARCH DATA MANAGEMENT & DATA SCIENCE

– two highly significant competences that
belong together.¹

OUR TARGET GROUP:

Doctoral researchers

Interdisciplinary education in data
science and research data management

Digital change

Huge amounts of data

Data science as key discipline

Research data management as
fundament for data science

¹ see: Turning FAIR into reality – Final report and
action plan from the European commission, 2018

Data Train

Training in Research Data Management
and Data Science

- Joint initiative of the U Bremen Research Alliance¹ and the Federal State of Bremen

Data Train

Research
Alliance

Data Train

Training in Research Data Management
and Data Science

Data Train

Training in Research Data Management
and Data Science

DATA TRAIN Development phase

RESEARCH

Internal &
external

ASSESSMENT

Status quo &
demand

- Qualitative approach; more than 70 interviews
- Quantitative approach

DEVELOPMENT

of concept &
curriculum

PILOT PHASE

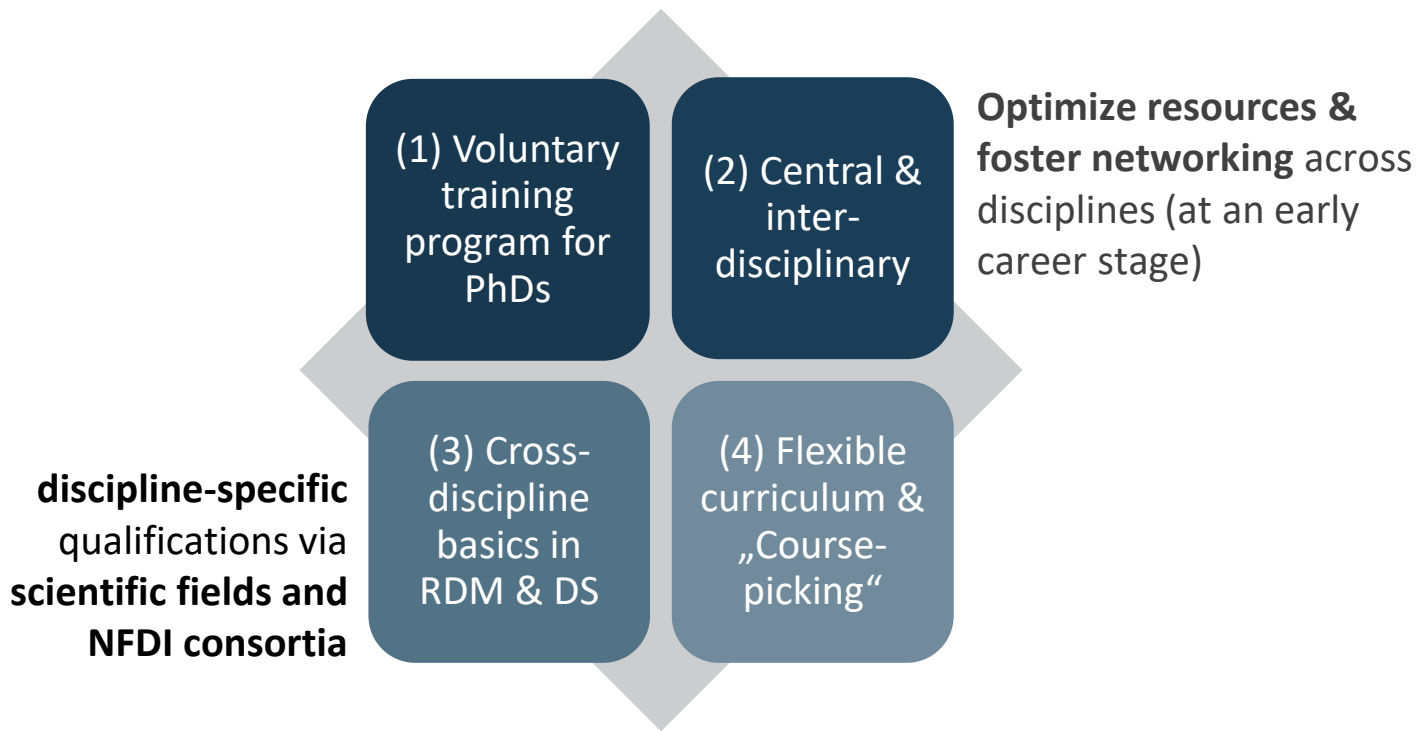

- Cross-disciplinary seminar for students
- Starter Track & Operator Tracks for doctoral researchers

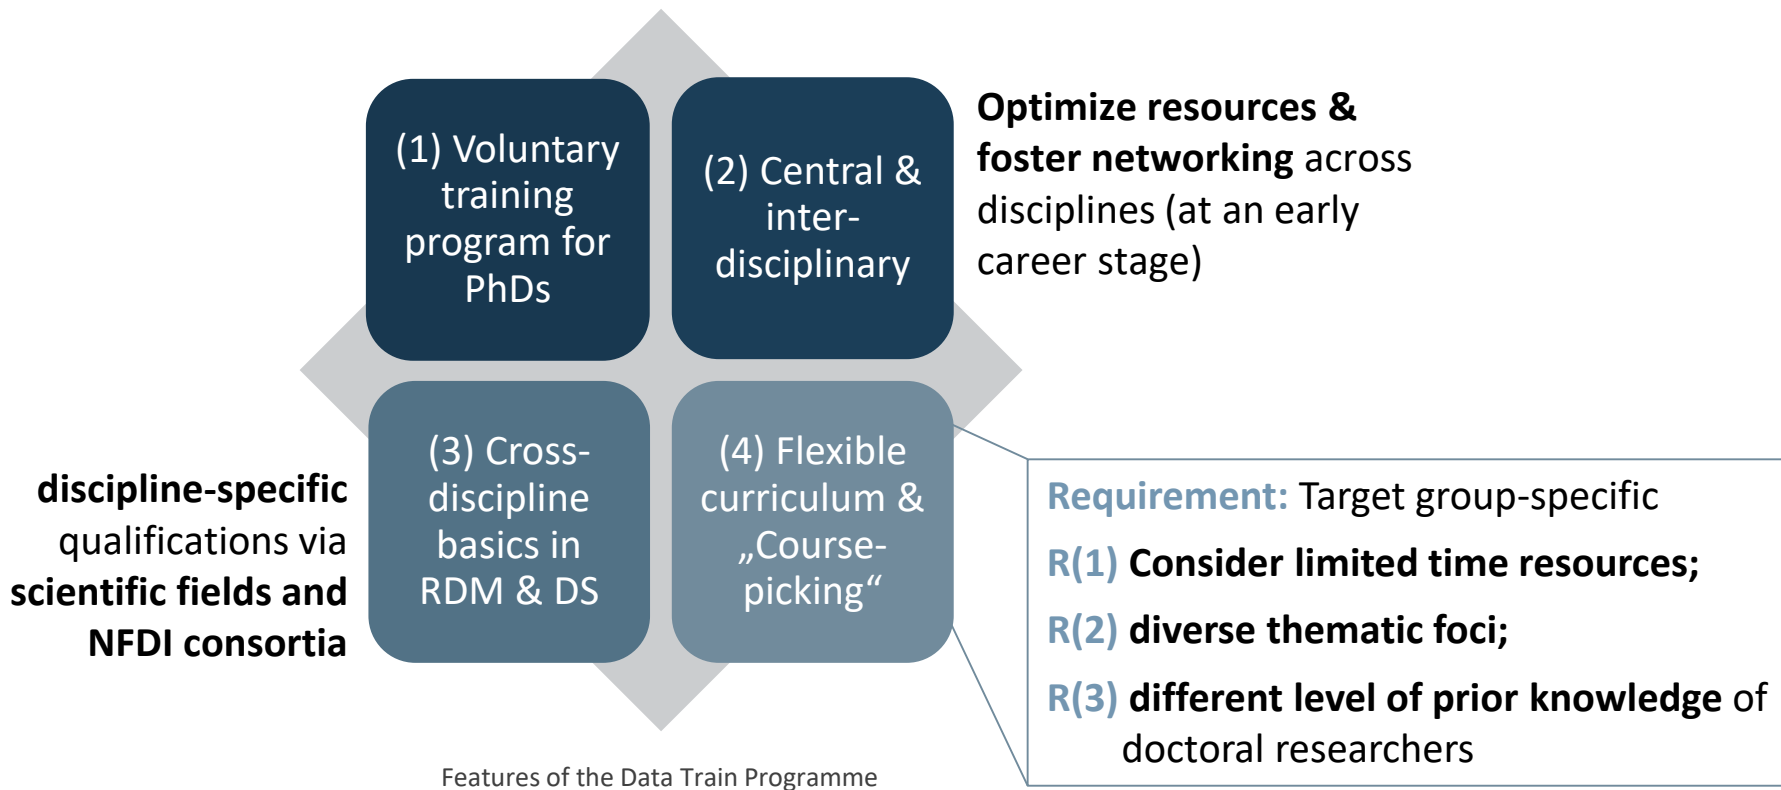

EVALUATION

- Online survey after each lecture
- (topic) tuning
- rethinking

DATA TRAIN Concept

Features of the Data Train Programme

1. Starter Track (L1)

Interactive overview lectures

2. Operator Track Data Steward (L2)

Hands-on workshops

3. Operator Track Data Scientist (L2)

Hands-on workshops

Level

L 1: Level „understand“

L 2: Level „apply“

Courses

Basic structure of the tracks

discipline -sp. courses

Lectures are:

1. Classified according to the level of prior knowledge

- Starter track, L1
- Operator tracks, L2

2. Operator track separated by topic

- „Data Steward“ track
- „Data Scientist“ track

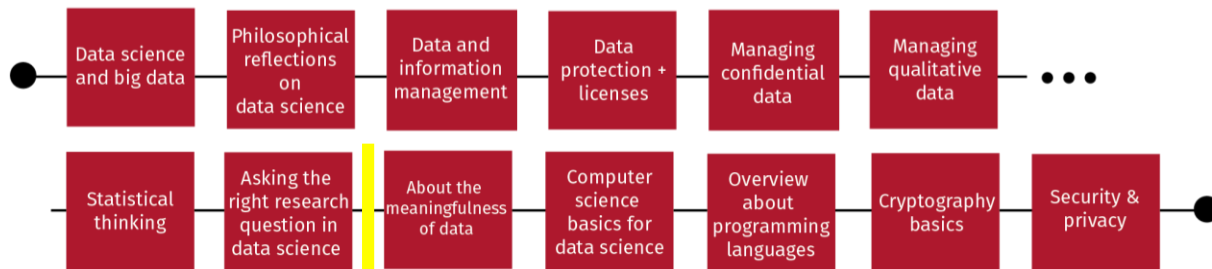

Discipline-specific qualifications via scientific fields and NFDI consortia

> 40 lecturers

- Internal and external institutions
- Industrial and commercial enterprises

On average > 100 participants

► Starter track, overview lectures (online), started in March 2021

► Data Steward track, hands-on workshops (online), start in June 2021

► Data Scientist track, hands-on workshops (hybrid if possible), start in September 2021

Thank you for your attention!
