

FAIRSFAR

Fostering Fair Data Practices in Europe

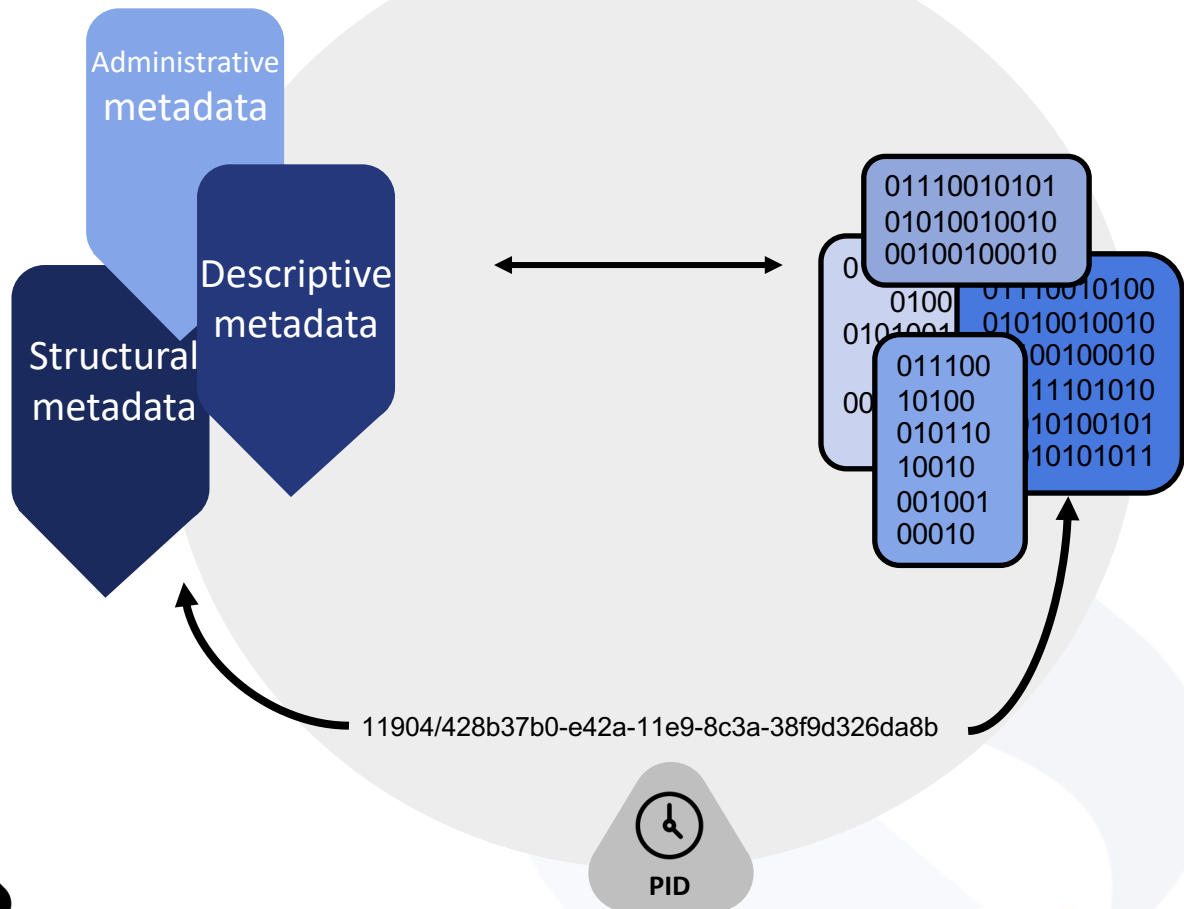

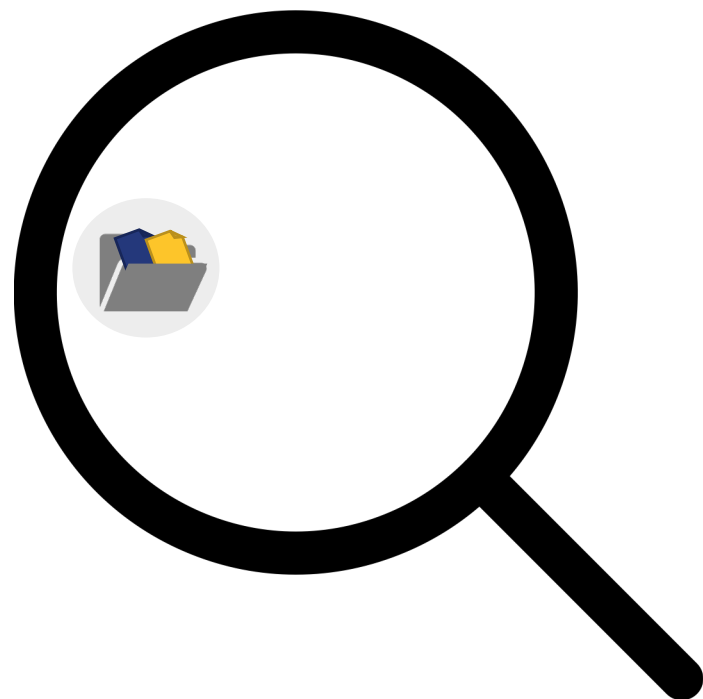

“FAIRification” of (Data) Repositories

Based on “D2.3 Set of FAIR data repositories features”

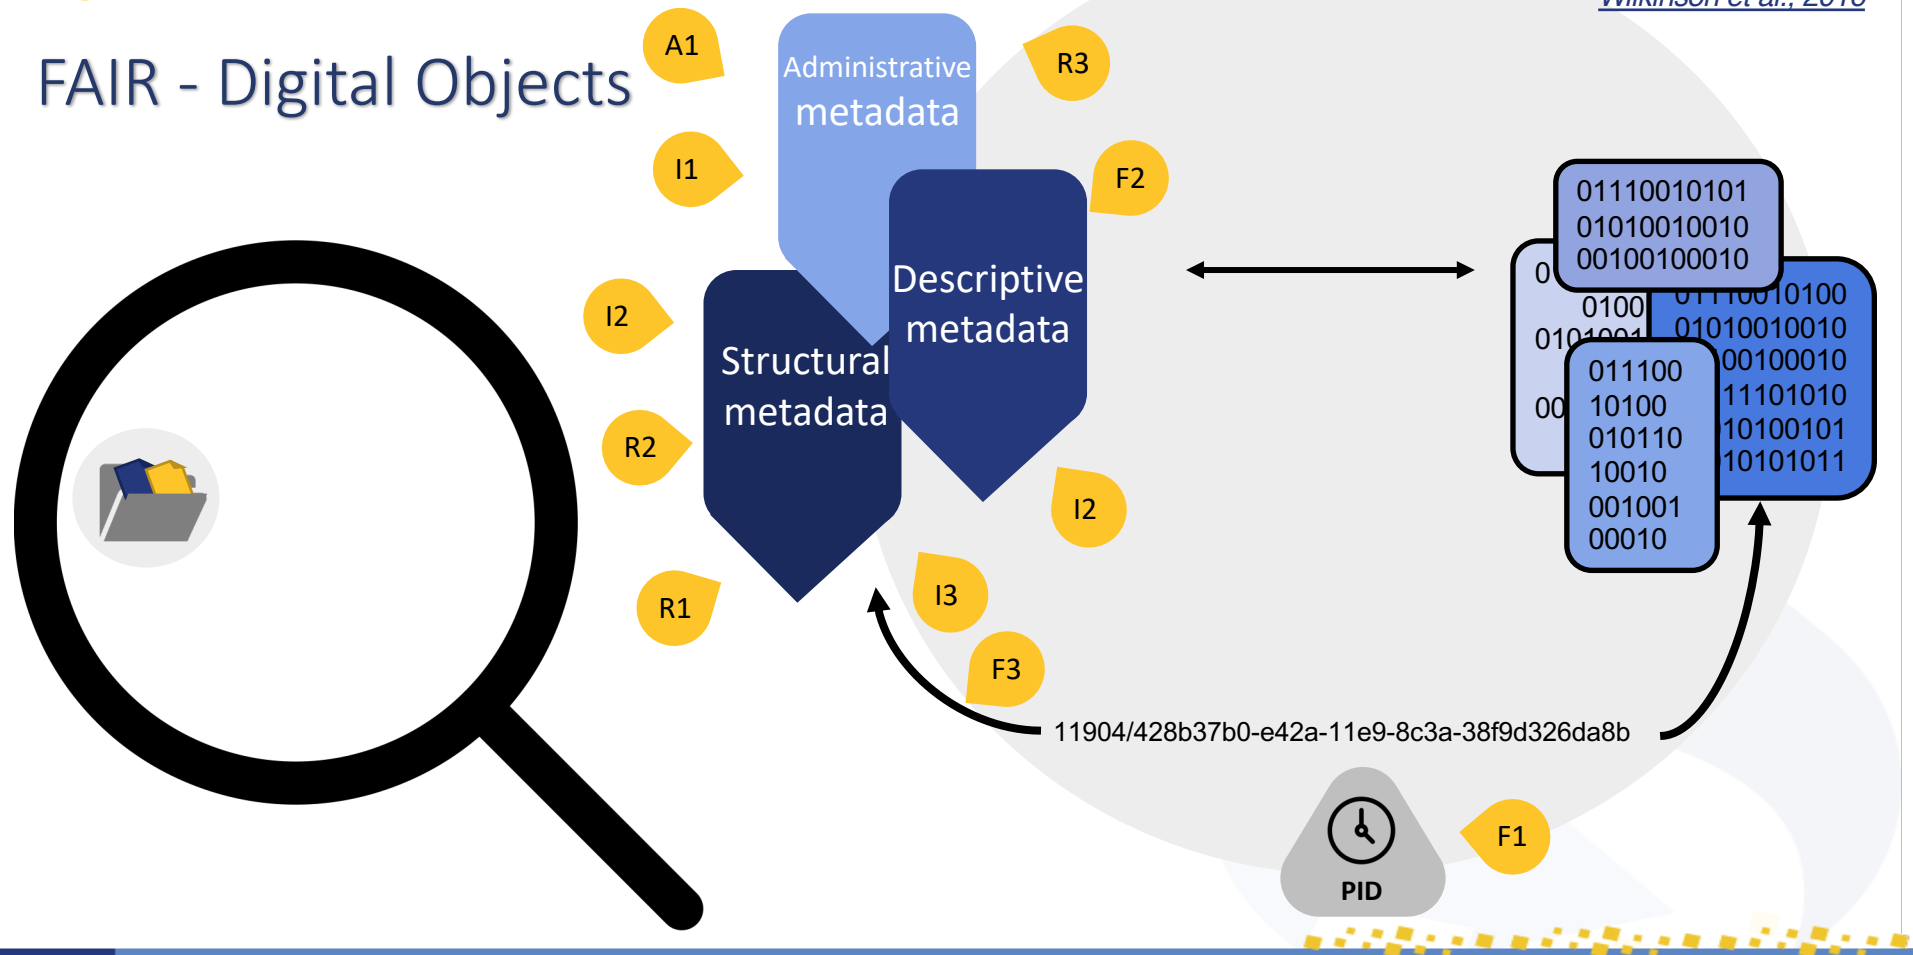

Claudia Behnke (SURF)

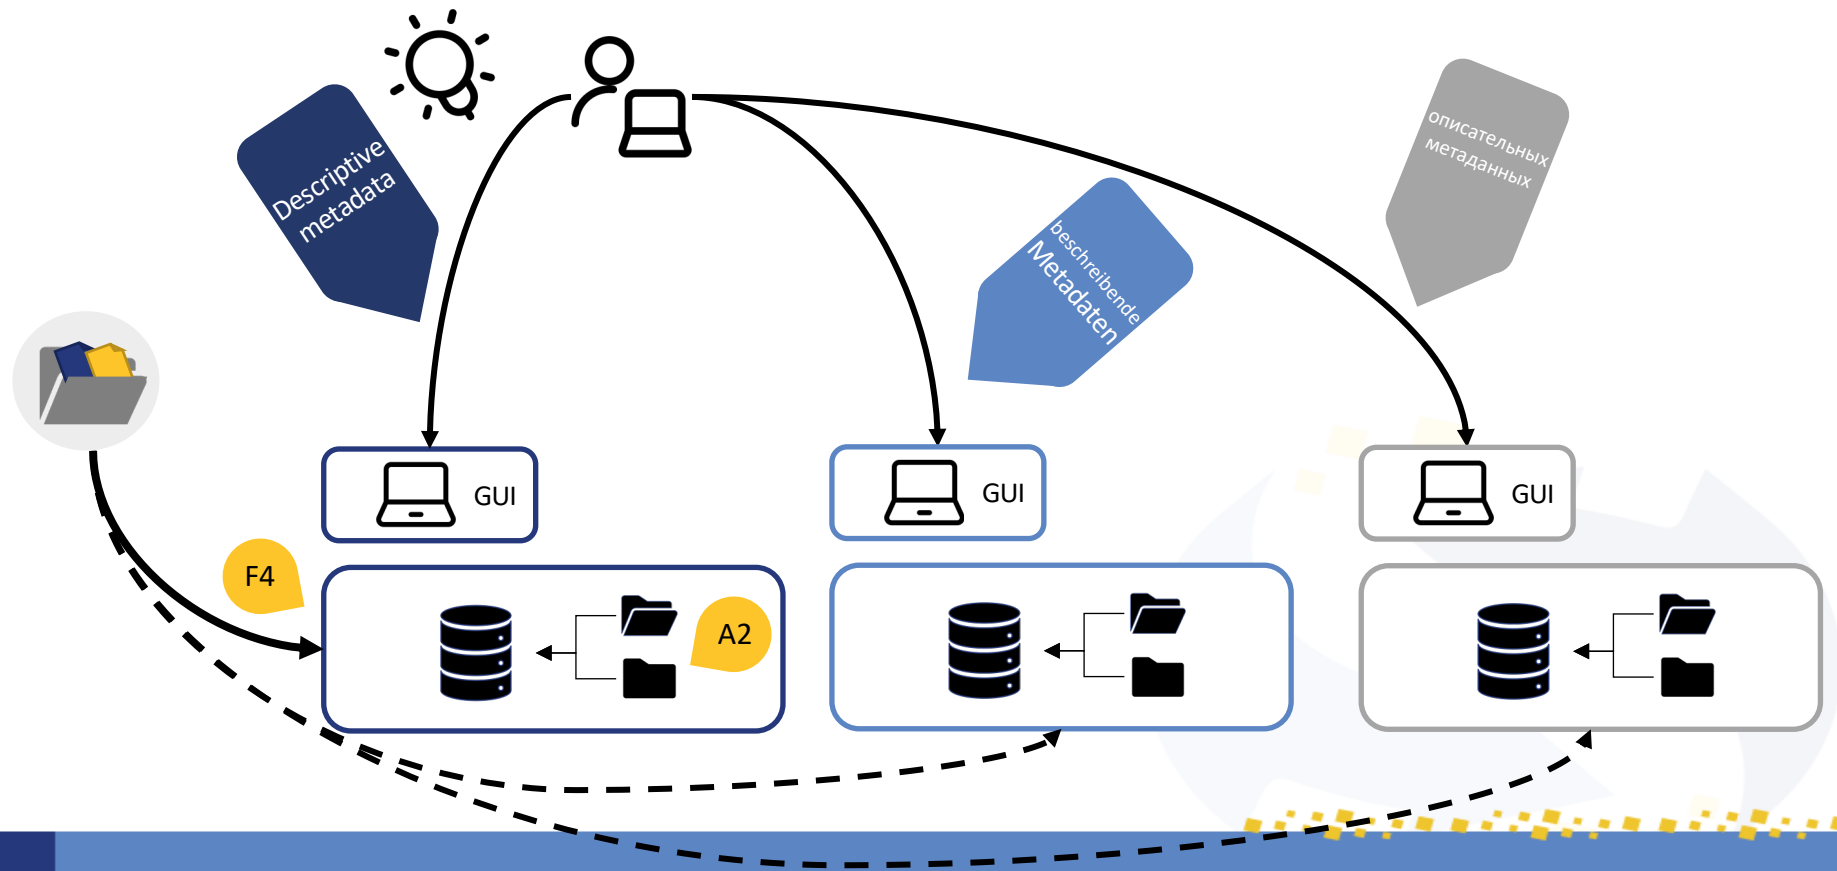

Digital Objects

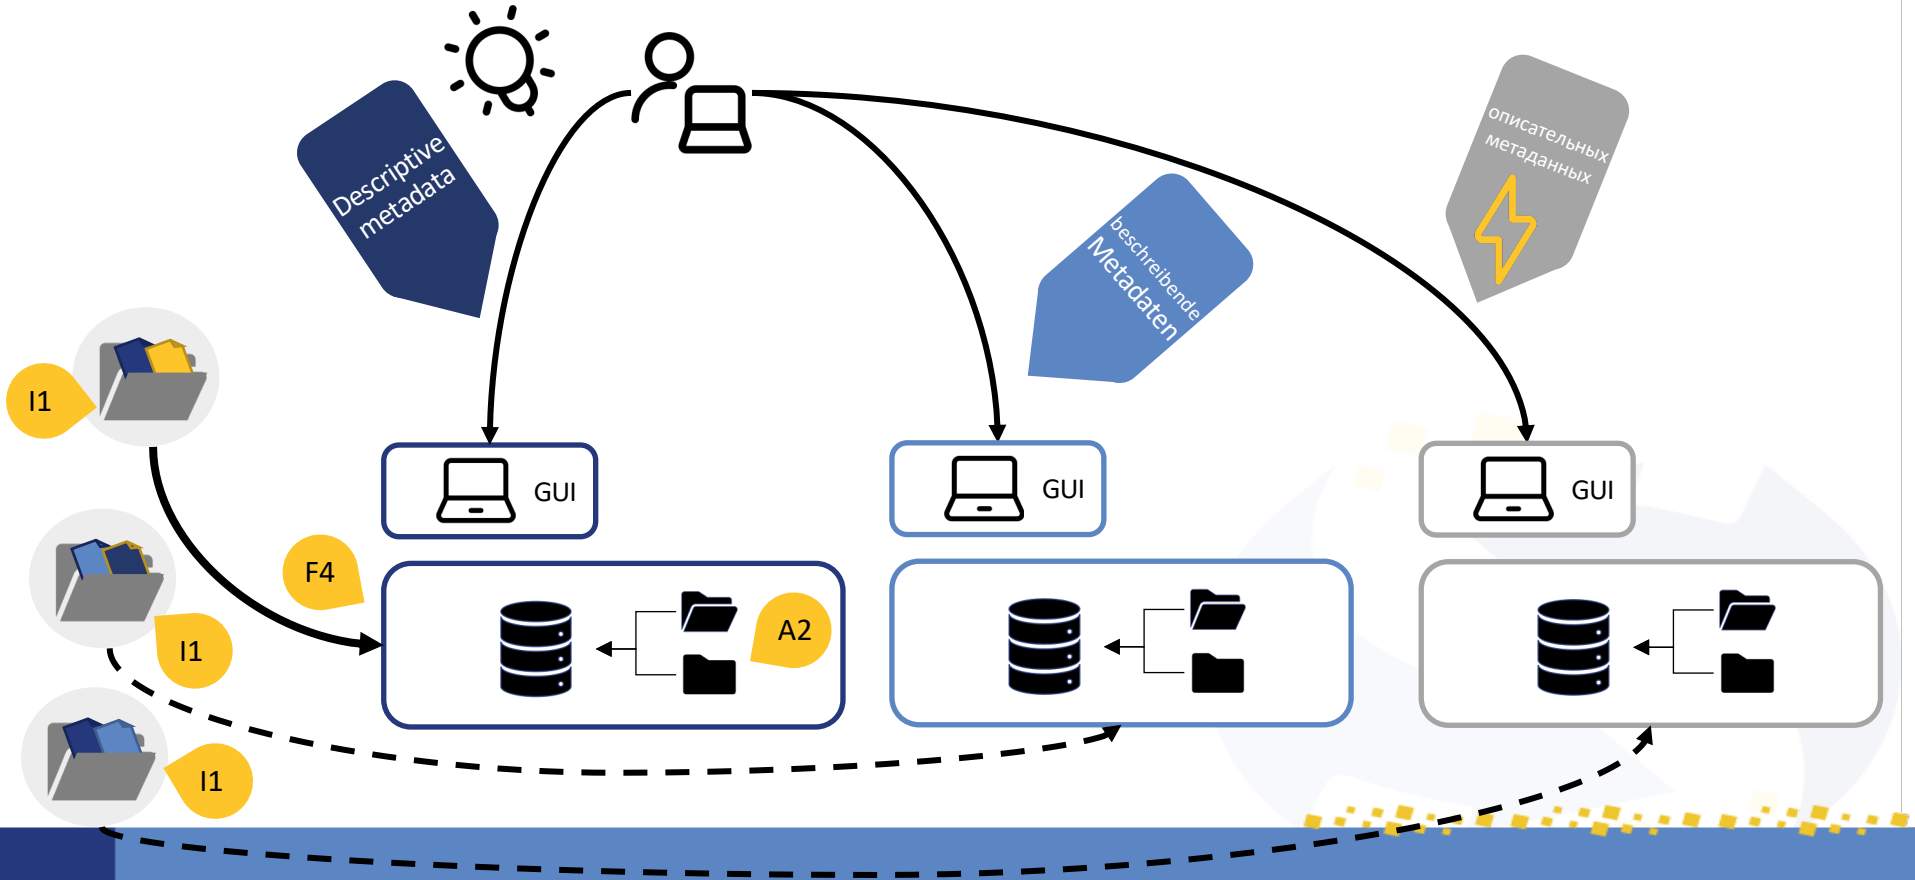

FAIR - Digital Objects

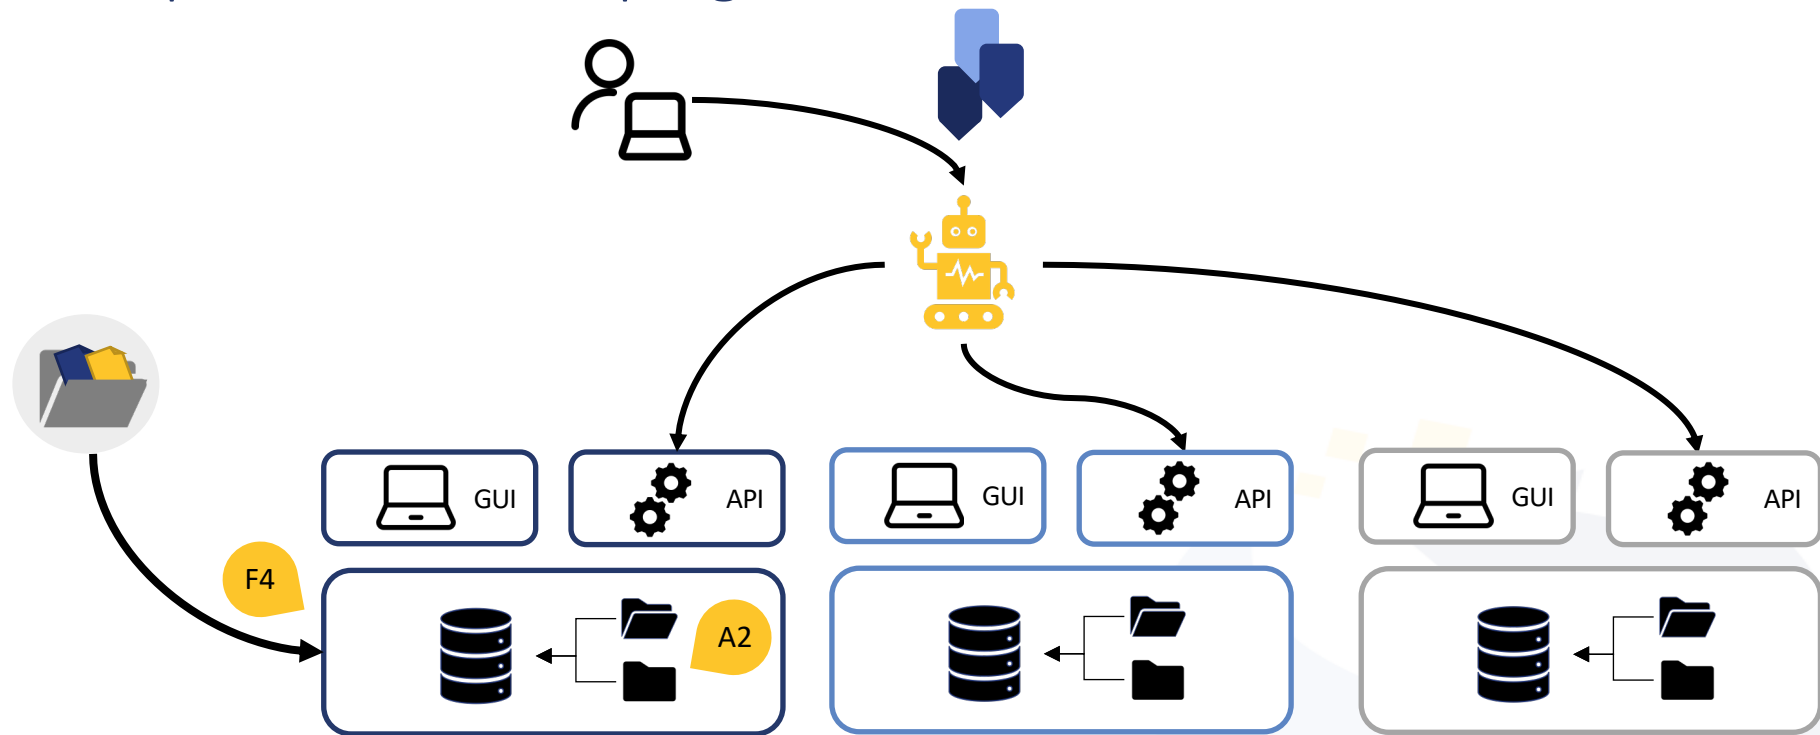

Repositories – keeping data safe – but “FAIR”?

Repositories – keeping data safe – but “FAIR”?

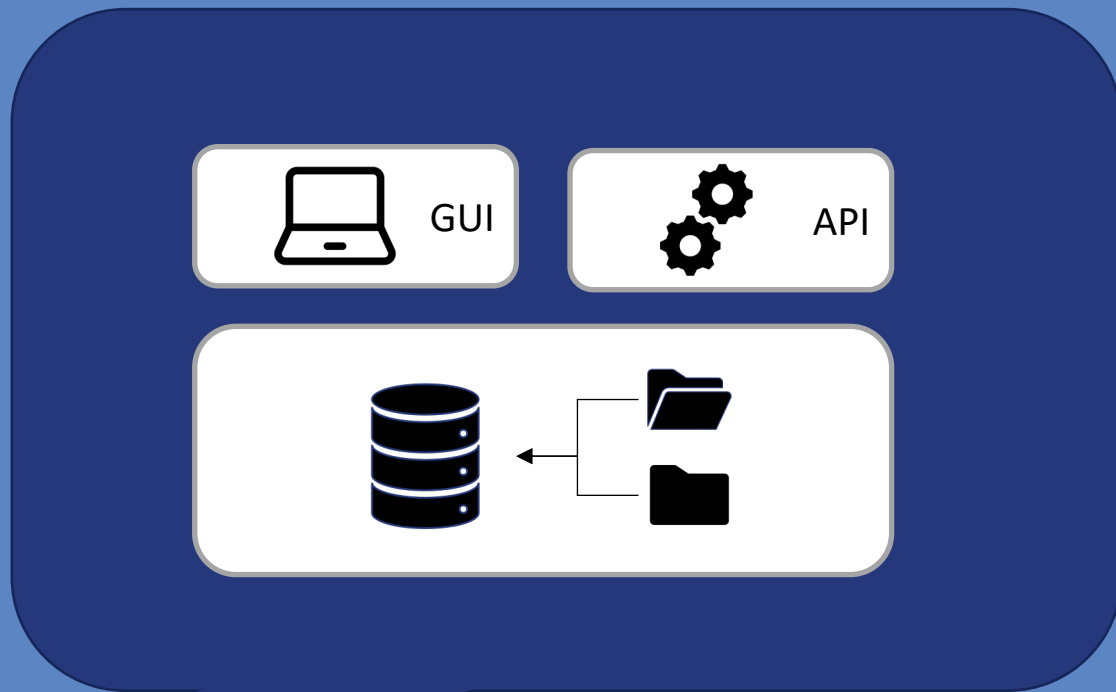

Repositories – keeping data safe – but FAIR?

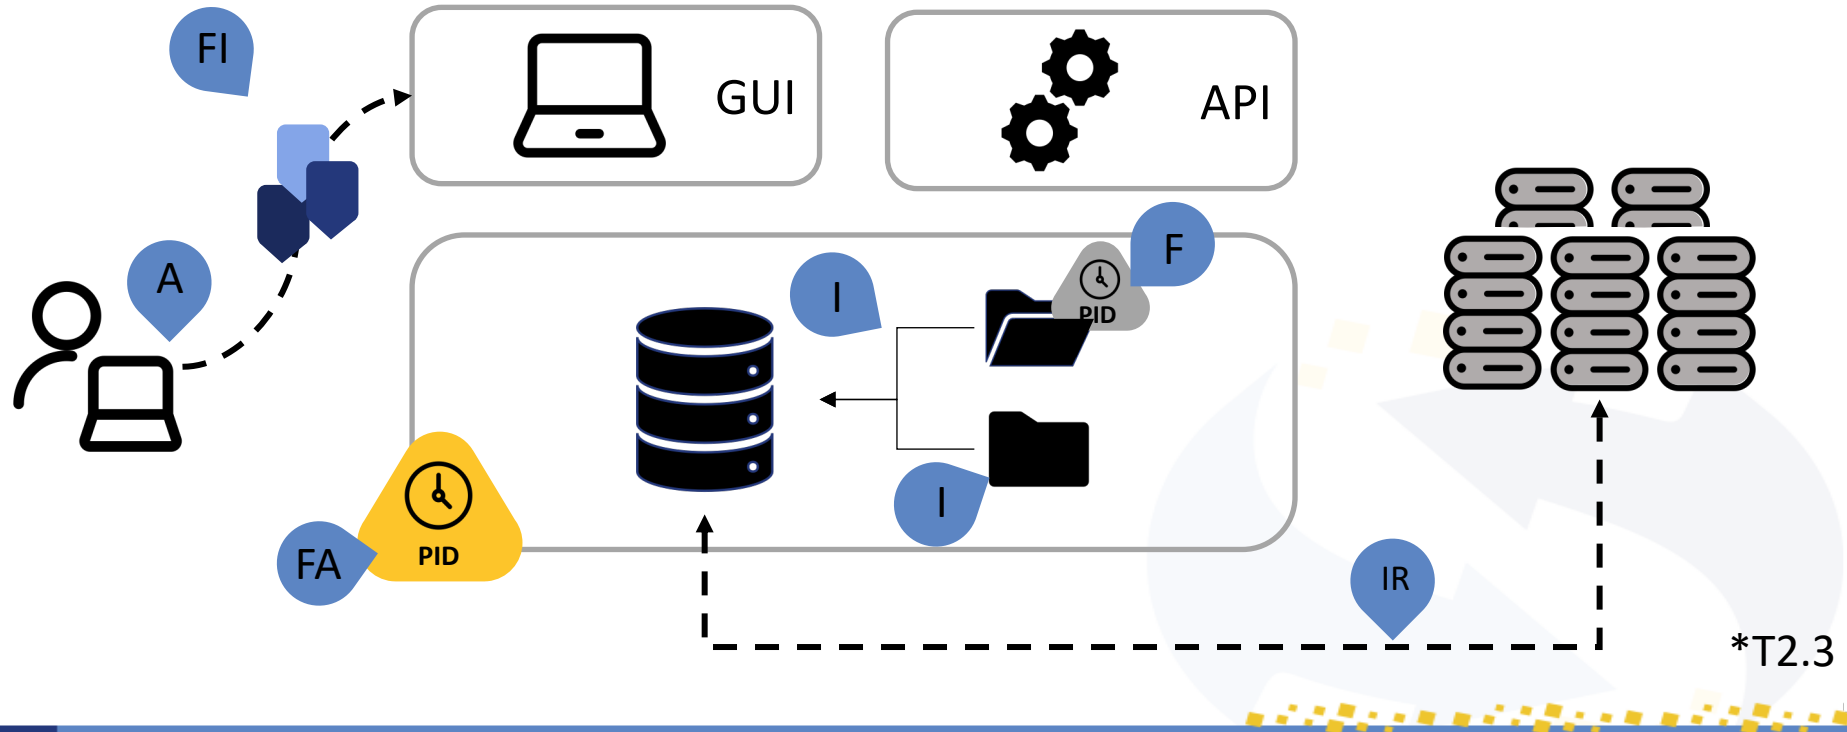

Feature engineering process

- ~70 participants from 6 communities:
 - European Life Sciences Infrastructure for Biological Information (ELIXIR)
 - European Incoherent Scatter Scientific Association (EISCAT)
 - Social Sciences and Humanities (SSH)
 - Integrated Carbon Observation System (ICOS)
 - European network of Long-Term Ecosystem Research sites (eLTER)
 - Data Publisher for Earth & Environmental Science (Pangea)
- Representatives from the registries FAIRsharing and re3data.org.

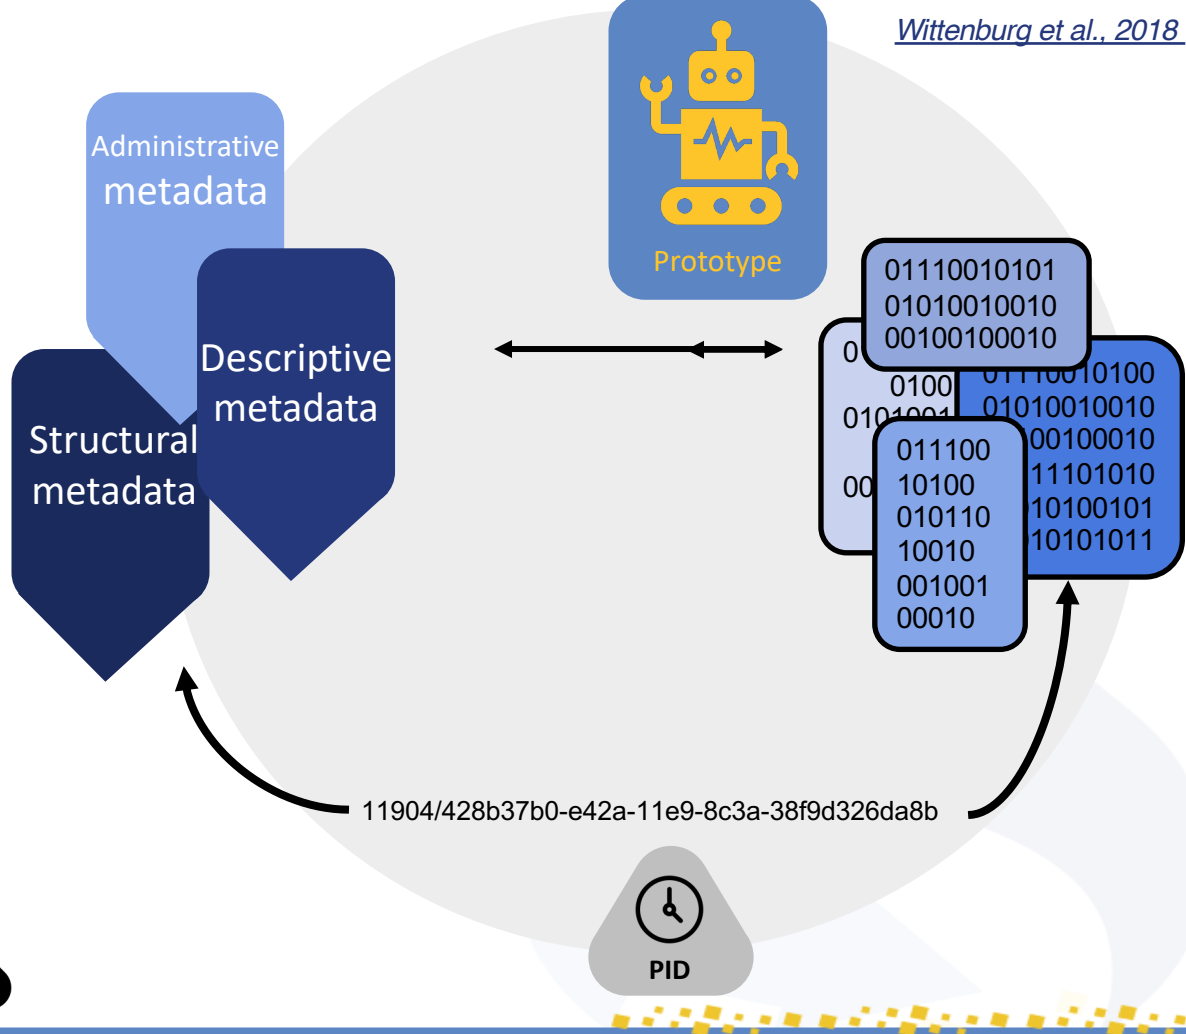

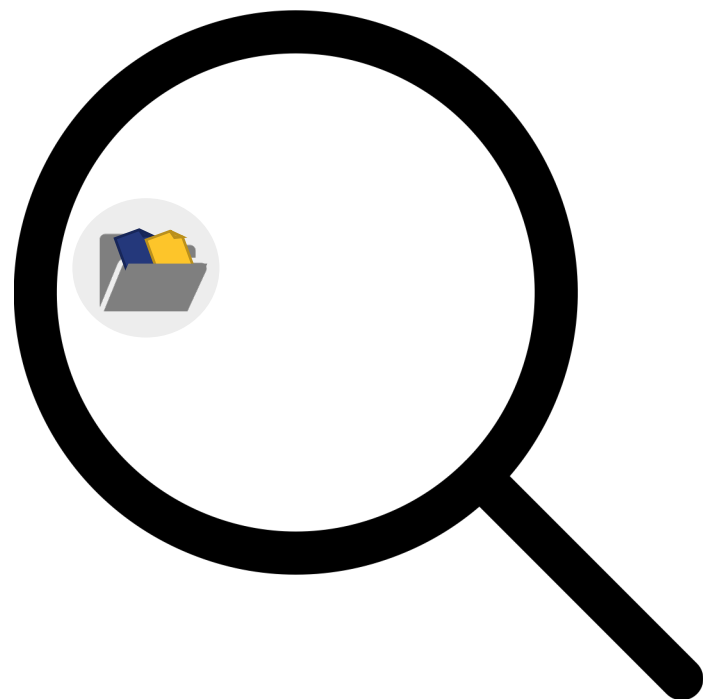

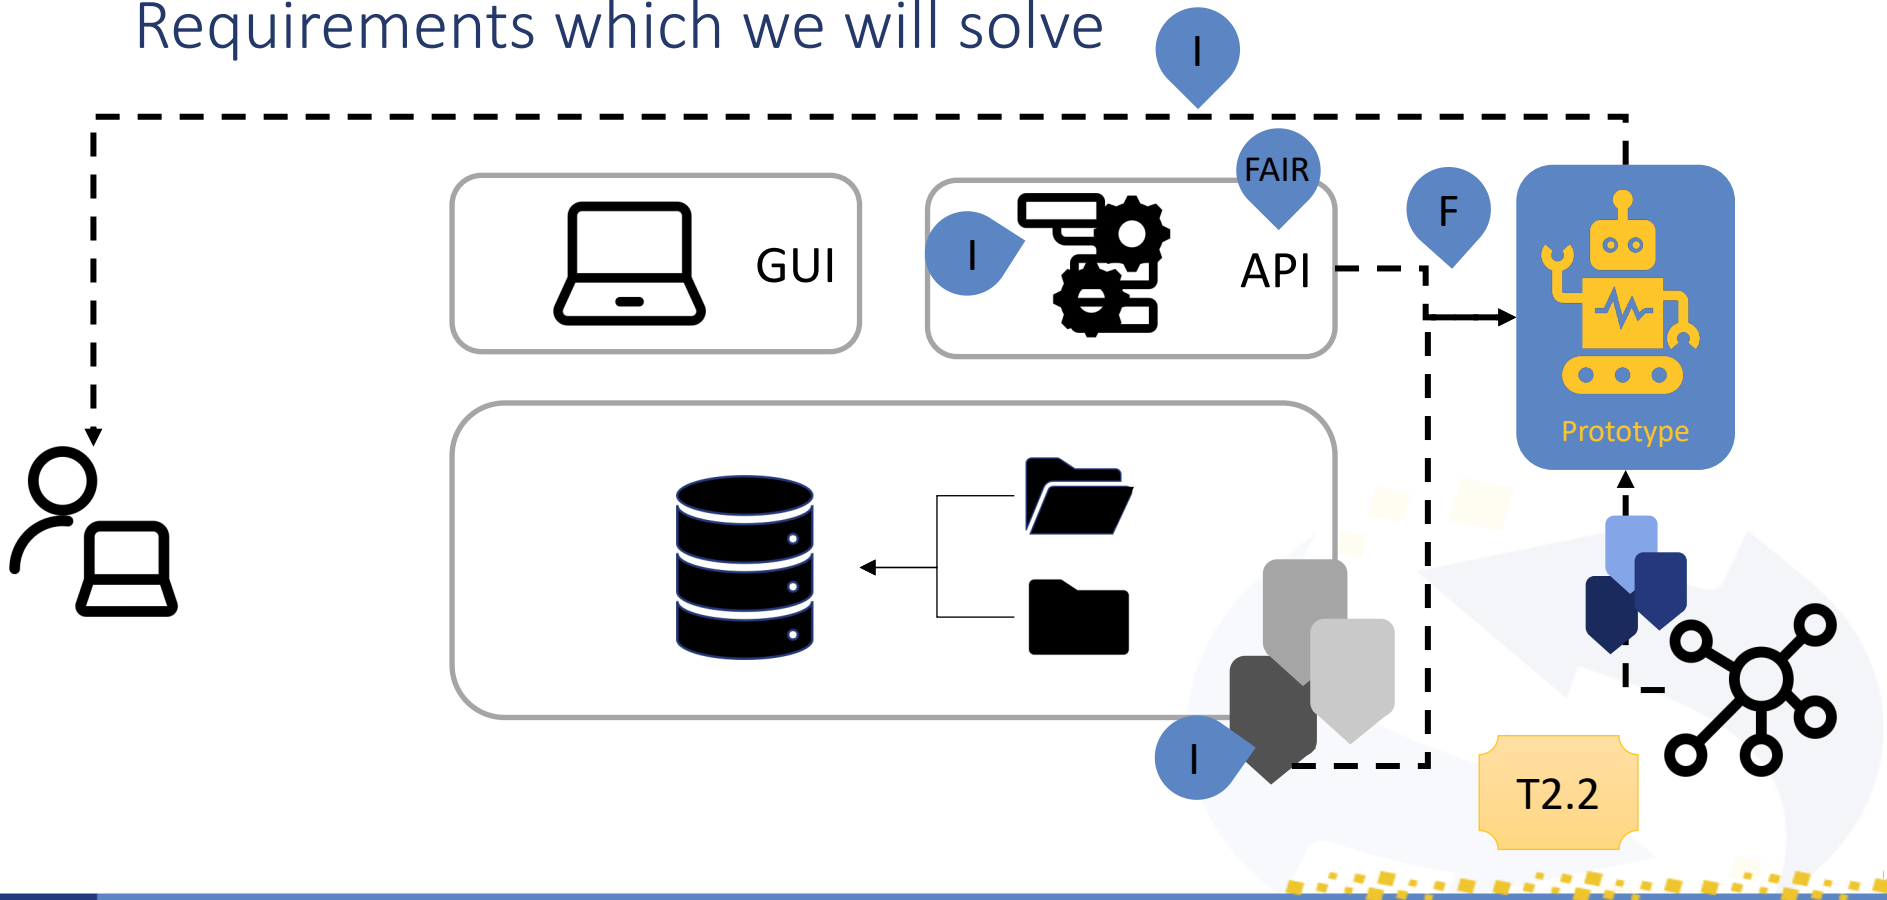

Requirements which we* will not solve
