# Using DCAT (Data Catalogue Vocabulary) to support metadata catalogue integration
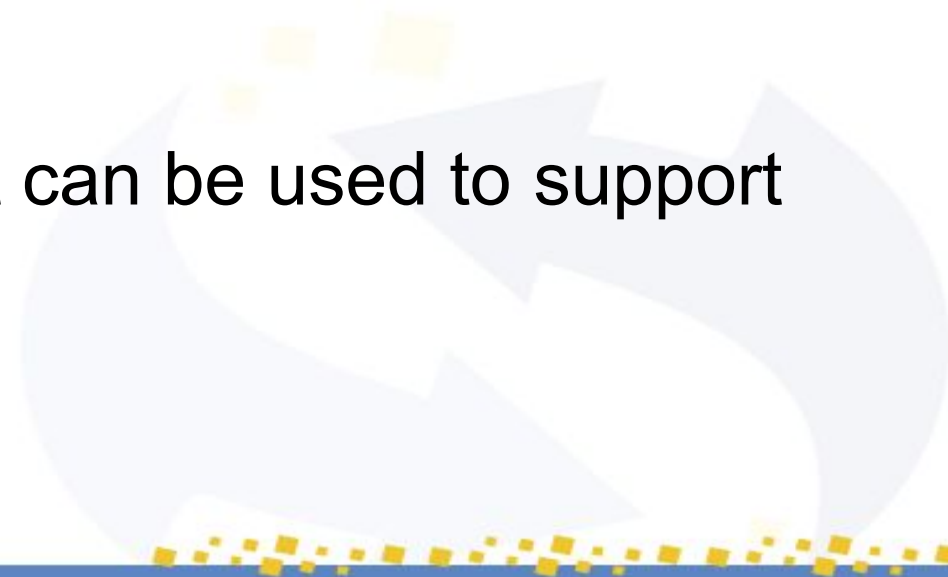

**February 17, 2022**

# Aims of this webinar

- Be aware of the role of metadata catalogues to support findability of data held in multiple repositories

- Be aware of FAIRsFAIR's metadata catalogue integration recommendations

- Introduction to DCAT and understand how it can be used to support integration of metadata catalogues
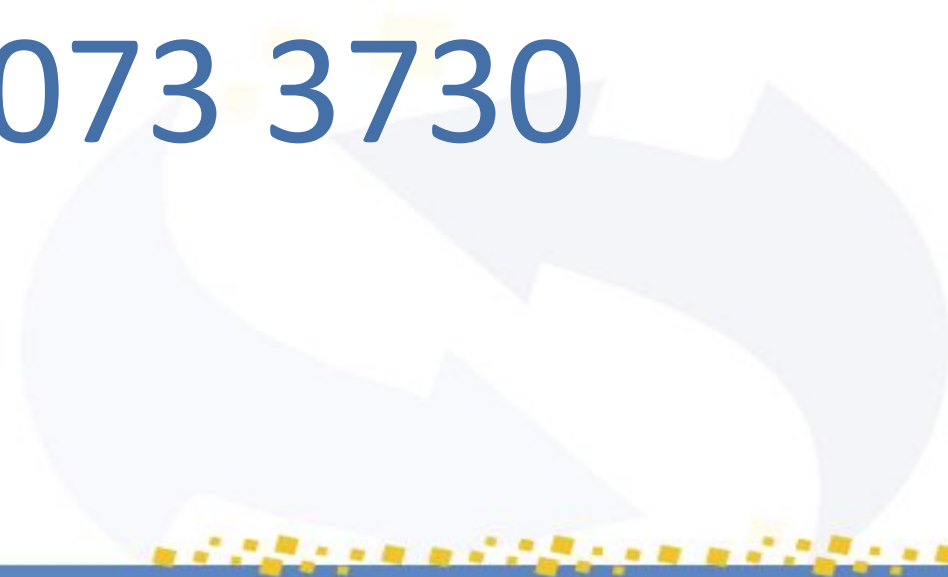

# A bit about FAIRsFAIR

FAIRsFAIR:

- H2020 funded project

- 22 partners, runs from March 2019-Feb 2022

- Emphasis on fostering FAIR data culture and uptake of good practices.

- Helping to realise the European Open Science Cloud (EOSC) vision.

Now, a bit about you!

Please go to www.menti.com and use the code 2073 3730

4

# Next up:

- Overview of FAIRsFAIR metadata catalogue integration recommendations, Eva Mendez, UC3M

- Role of DCAT in supporting metadata catalogue integration and summary of changes in DCAT v3 - Peter Winstanley, Semantic Arts and Alejandra Gonzalez Beltran, STFC UKRI

# Next steps

# Please go back to www.menti.com and use the code 2073 3730

# Summing up

- Metadata catalogues are crucial for supporting findability of data held across multiple repositories via aggregator services

- DCAT has great potential to support metadata catalogue integration

- DCAT should be used in conjunction with other metadata standards to support interoperability on the dataset level (e.g., DDI-CDI)

# Thank you!
